EDUCATION

2010 2011	**Carnegie Mellon University**
	Masters of Human Computer Interaction

2005 2010	**University of California, San Diego**
	B.S. Cognitive Science with Specialization in HCI

Jun 2008 Aug 2008	**Beijing Normal University**
	Study Abroad Student, Chinese Intensive Language Program

EXPERIENCE

Jan 2015 / Current
Inkling
Product Designer
Currently working on projects to enhance our web based content authoring tool. I recently led design on an analytics tool to help companies optimize their training program. Our product designers span the full process of research, problem definition, prototyping, and visual design.

Oct 2013 / 1 year
DataPad
Designer
Owned design efforts for a web based data analysis tool from initial inception of stories to high fidelity visual mock-ups. My process included exploration through sketches, visual mockups, web prototypes, and constant feedback both internally and from users.

Aug 2012 / 10 months
Camino Real
Product Designer, Blippy
Led design for a video focused web product. Established a lean UX process with agile development practices to quickly sketch, build, iterate, and test each feature in the app.

Sep 2011 / 8 months
Freelance
Product Designer
Worked closely with various enterprise and consumer product teams on key design decisions and process. Developed key workflows, wireframes, mock-ups, interaction specifications, and scenarios to communicate ideas to developers and stakeholders.

Jan 2011 / 8 months
SRI International
Lead User Experience Designer, Thinkspace iPad App for Biology Students
Collaborated with SRI International during an 8 month Master's Capstone period to identify opportunities for applying AI within biology education. Implemented an end to end user-centered design process to both research current dynamics in the biology classroom and design an iPad application that uses SRI International's AI technology.
